

## BRANDON'S FINGER PRINTS ON AUTO, EXPERT TESTIFIES

His on Rear Door, Perchand's  
on Windshield, Says  
Schwartz at Murder Trial.

Edward A. Schwartz, fingerprint expert for the Newark Police Department, testified today in the Union County Supreme Court, Elizabeth, at the beginning of the second day of the murder trial of George Brandon, alias Harold V. Lambie of this city. Brandon is charged with the double murder of Arthur J. Kuper and his fiancée, Miss 20th Janey, early on Aug. 23, 1918, in Kuper's automobile on the outskirts of Rahway, while Kuper was giving Brandon and his friend, Charles Perchand of New York, a "lift."

Schwartz, who is a fingerprint expert of national reputation and has been on the Newark force in that capacity for seven years, during which he has examined 16,000 cases, said he took photographs of the fingerprint impressions on the murder automobile a few days after the murder.

He testified that on July 23 last he was called to the county jail in Elizabeth, where he took fingerprints of Brandon and Perchand. These impressions were identical, Schwartz

the photographs of the prints on the automobile on the ground that the door of the car itself, with the actual impressions, should be introduced instead. The objection was overruled.

The first witness was John A. Gellan, Chief of Detectives of Union County. He said he took the automobile from Wood Avenue, where it had been abandoned, to the Central Garage, in Union Avenue, Elizabeth, where he covered it with canvas to prevent handling. He was not cross-examined.
